

GET OUT

Pinkshift

I don't like the way you tell me
What you think that I should say
I don't like you in my space
I want you go, you to go away
Get out of my face
Get out of my face
Get out of my face
I don't want you here so go away

You talk circles around my head
Make me wish that I was dead
I don't like the way you need me to stay
I need you
I need you to leave
Get out of my face
Get out of my face
Get out of my face
I don't want you here that's what I said

I've been ten feet tall before, I know what that's like
I would never use it to stomp you down
But you've made it worth my while
And I fight to occupy space, but I know that it's mine
I want whatever you're on
That makes you think your words are worth my time

Get out of my face
Get out of my face
Get out of my face
I don't want you here that's what I said
Get out of my face
Get out of my face
Get out, yeah you're fake
I don't want you here that's what I said
