

## Something More

Pinkshift

Wake up and shake it off, it's not a dream anymore  
You manifested a life  
You wanted more, so you made it something more  
From the edge of this cliff into the valley is yours  
You're the creator of worlds  
You can create your oasis, just like this

Oh, you want it all  
'Cause you want it  
See it in the stars  
You want it  
Don't you want it all?  
To believe you were made for something more than this

So what? You don't think that you know who you are  
You're all covered in scars  
You're outgrowing them all though, one by one  
I may be broken, but I'm picking up my pieces one by one  
One by one

Oh, you want it all  
'Cause I want it  
See it in the stars  
Yeah, I want it  
Don't you want it all?  
To believe I was made for something more  
I believe I was made for something more than this

I was dreaming, but I woke up to forget  
Life is beautiful, created my own vision of it  
Shattered bones, will they rebuild themselves again?  
There's castles in the sky, I know there's something more than  
this  
Oh, you want it all  
See it in the stars

'Cause I want it  
Oh, you want it all  
Yeah, I want it  
See it in the stars  
Oh, you want it  
Don't you want it all?  
To believe you were made for something more  
To believe you were made for something more  
I believe I was made for something more
