

## Toro

Pinkshift

I've always wanted you inside my head  
To dance around my bones and make me a mess  
I'm begging you to rip me to shreds  
I've looked and longed and craved and starved my whole life to  
death  
Help me, the storm is coming soon  
It's dark as night mid afternoon  
I'll hear the whispers in the dunes  
Promise they'll be here very soon
