

Blackhearted Doubts

Pipes And Pints

Kicked in society 75

Analyzed in 84

Side walk tears everyday

Military white trash family

Been back and forth and around in this world

my life for you is like a movie world

Hesitated mysticated my mind is being indicated

of the things I really wanna do

Sadness, madness, broken hearts

All those things I had before

Black hearted doubts

Running after me

Twisted mind since 93

Heartache, homeless, pills and misery

Been down and out upside down

This fucked up world still spinning round

They locked me up they tied me down

This confused mind still going round

Manipulated, isolated, don't wanna be self medicated

Self destruction all the time

Broken, beaten, blacked out too

All those things I had them too

Forgotten thoughts inside my head

Forgotten friends they want me dead

Black hearted doubts are running after me

Running after me
