Warpath 82

Pipes And Pints

Always moving forward
even when it comes down backwards
Unanswered questions come and go
Confused path in 82
My life was changed in 92
Made people sick with what I did
got no regrets with what I did
You messed me up way to long
Now it's time for me to move along
No matter what you talk or say
My life, my war, this is my way
Warpath 82
I know just what to do

My teen years where mostly blind
wasted youth and out of line
Time is ticking away
live life all the way

I'm good and bad right and wrong
a strange liar fucked up and strong
My looks my thoughts my energy
standing strong with integrity
These stories that I'm telling you
Yes theyre really true
You got dreams, I got mine
This hardcore life is not the line
Playing life no where to go
This is the only life I know
Street life and the parts you play
I wanna rock this life away
