

How did I reach you boy?
You belong in space
If I let go I'm sure you could fly away
You help me sleep with a smile on my face
How do I love you boy?
Lemme count the ways

How did I reach you boy?
You belong in space
If I let go I'm sure you could fly away
You help me sleep with a smile on my face
How do I love you boy?
Lemme count the ways

1, 2, 3
I love you like I'm twenty five
Like I'm twenty five
2, 4, 7
Oh, I love you being mine
Love you all the time

1, 2, 3
I love you like I'm twenty five
Like I'm twenty five
2, 4, 7
Oh, I love this little life
Love you all the time

Love you
I love you like I'm twenty five
Like I'm twenty five
Love you
I love you like I'm twenty five

Song bird
We should get to hanging like a poster
Oh-woah-oh
It's all yours
Maybe you can take it when you're older

So I'm counting the reasons you've got my love
I might-
Oh, I just might reach a thousand!
Ever since I just turned twenty five
I don't even think about it I just love you like

1, 2, 3
I love you like I'm twenty five
Like I'm twenty five
2, 4, 7
Oh I love you being mine
Love you all the time

1, 2, 3
I love you like I'm twenty five
Like I'm twenty five
2, 4, 7

Oh, I love this little life
Love you all the time

Love you
I love you like I'm twenty five
Like I'm twenty five
Love you
I love you like I'm twenty five
