

## She Is Science Fiction

Pissed Jeans

Lately I've been gazing at stars  
Ohh, the wishes will only go so far  
I want someone to read my mind  
Ohh, to hold my hand and vaporize

I teleport it's lots of fun  
Ohh, when it's with the one you love

Crawl at the wall and start to fly  
It makes my feelings multiply

She moves, like a vision  
It's all intuition  
Come on, like a prism  
She is science fiction
