

Day Drinking

Pitbull

Everybody's always waiting on friday
Watching that clock and sitting on go
Whatcha' say we find a little warm sunshine
An open umbrella on the patio

I don't need a reason or a happy hour
And hang around for a fireworks show
Get a head start a little sip of somethin'
Off and running here we go
1, 2, 3 Here we go

Don't want to wait 'til the sun's sinking
We could be feeling alright
I know you know what I'm thinking
Why don't we do a little day drinking
Why don't we do a little day drinking

Blame it on the work day
Blame it on the heatwave
