

# Get Get Get Down

Pitbull

Everybody on the dance floor, what the hell you waiting for?  
Get, get, get down  
Everybody in the club, go 'head, put your drinks up  
Get, get, get down (Mr. Worldwide)  
Everybody in the honky tonk, them girls with their donky donk (Play-N-Skillz)  
Get, get, get down  
Everybody get loose tonight (Tim McGraw, talk to 'em)  
Everybody get lit tonight  
Get, get, get down

Man, I like it, I love it, I want some more of it  
And I like it, I love it, I want some more of it  
(I like it, I love it, I want some more of it)  
(I like it, I love it, I want some more of it)

(Woo)  
She's getting all dressed up  
She's getting all sexy  
Get, get, get down  
When the driver pull up, baby  
Just jump in the back seat  
Get, get, get down  
I see you in them sexy heels  
I see you dressed to kill  
Get, get, get down  
She's a certified twenty  
And when it comes to me, she's got plenty

Now I party like a rock star  
Look like a movie star  
Play like an all-star  
Baby, meet me at the bar  
I party like a {rock star}  
Look like a {movie star}  
Play like an {all-star}  
{Baby, meet me at the bar} (Woo)

Man, I like it, I love it, I want some more of it  
And I like it, I love it, I want some more of it  
(I like it, I love it, I want some more of it)  
(I like it, I love it, I want some more of it)

(Woo)  
She's got that mean walk and them legs that turn heads  
Get, get, get down  
She knows how to keep it real  
She knows how to play the field  
Get, get, get down  
You better get yours  
'Cause you know she gon' get hers  
Get, get, get down  
So bad, so fine  
And believe me, she'll blow your mind

Now I party like a rock star  
Look like a movie star

Play like an all-star  
Baby, meet me at the bar  
I party like a {rock star}  
Look like a {movie star}  
Play like an {all-star}  
{Baby, meet me at the bar}

Man, I like it, I love it, I want some more of it  
And I like it, I love it, I want some more of it  
(I like it, I love it, I want some more of it)  
(I like it, I love it, I want some more of it)
