

# Carnival

## Pivot Gang

Ha, yeah, yeah, check  
Check, check, yo, mhm, aha  
Hey, ho  
Ayy, where my Common fans at? Haha  
It's, it's, where is it at, though?

Life is like a carnival  
Niggas pull up deeper than a dish from Giordano's, bro  
She bad as fuck if I'ma go, I don't got baby mamas, though  
I'm four-for-four, chill as fuck, just like my persona, bro  
Accomplishin' all kinda goals, catch ya like the common cold  
Well-connected like the pope  
Hide the dope, smokin' hidden leaves like they Naruto  
We outside of this harvest, though, make me nut like Sandy Cheeks  
I go harder than Gaara go, stunt when I feel horrible

Yeah, I'm doin' damage like the armor low, you dodgin' smoke  
Like a kid at dinner, skip that artichoke  
I'm master of the aqua-flow  
I kick it, they copy, though, they follow me like I'm a troll  
She slippery like we went too far out while we was tryna bowl  
Pivot gang, the honorable  
Drop a classic like I'm Dr. Dre around the chronic smoke  
Uncommon as a common dog around a pack of common wolves  
Who's a fan of Common? Every sonnet need a Tylenol  
Sick shit, kinda raw  
Comin' off the bench, I told my mans an' them it was time to ball  
This on par with Final Four  
They say, "Who the best?" I raise my hand as if my arm was sore  
Still alive, keepin' my eyes to the sky like I'm Ray Charles

Vamanos, used to bump that Angie tune play Grand Theft Auto  
I would smoke, made it out the jungle, Robin Williams  
Dodge all kind of strokes, blood pressure, pressure my tendencies  
Push the envelope or ending up pushing envelopes  
I smoke like I don't know to cope  
Holy Ghost'll hold to your team to show your soul yo' goals  
Welcome to my dome, I find sanctity in these flows  
The most who chose this, all my choices much greater  
Than following protocol, pro to call the shots  
I don't referee but I know my role  
Shut your trap like they found a rock  
Right back where your auntie stay  
I am used to roaches on counter tables and coffee trays  
How'd I end up smoking on county mountains like doctor hey  
Hey, yeah

Double down your mission, been cookin' up in the kitchen  
All these different strokes became a gift, add it and skip  
They wanna rock the boat, only wanna skyrocket  
More Houston, so the commas grow, came from common ground  
Still caught from niggas calculatin' cash in the pounds  
Boxin' round after round at the darkness  
Lead the chores, lead the race, need a choir, need a fire  
Burning down the path blaze, sad to show us we the tired

Been off the porch, Geronimo

Smoothly he just nurturing the youth just like some Danimals  
Go postal, push the envelope  
Sexy and I'm boastful, eat your heart out like a cannibal  
Domesticated animal, can attest  
Buried in distress just like a damsel, bro  
Channel lit, I am remote  
Far off in the distance with the antidote, and the dope  
And my coat fabrics show I am the goat  
Broke bread, can't be a loaf, ideas go  
Words coming via hose

So it's fuck all of your articles, not an area of chronicles  
Chronicle how we audible, all the world how we send it home  
Blowin' hole like I'm nautical  
Sea floor like I'm a barnacle, see flow like they're that monocle  
C4 like I'm about to blow  
Pivot fight club, nigga, but we is not a cult  
We was keepin' our bars clean while you was watchin' soaps  
Politickin' in every city is how I got they vote  
Now we usher in a new wave, maybe that's adios
