

Clark Kent

Pivot Gang

Theme song, ringtone, every time you phone me
My Clark Kent is nonsense, you my one and only
Main attraction, made a habit dance while you lean on me
No cap and no distractions when I make it home

Ayy

Pivot in sync, I'm Lance, we can make her ass clap in sync when we dance
Still get excited when we get to hold hands
But now your pussy bring me closer to God like Chance
Had to log out 'cause you were snappin' on the 'Gram
You gotta send a warnin' if you gonna use a filter
Move that ass like a realtor gentrifying the hood
You so sweet, when I eat you if I'm cryin' I'm good
Shoot my shot like Steph Curry at the Oracle Arena
Had me jumpin' out my body tryna exorcise my demons
Wet like FEMA still tryna crack like femur
I need you now like Smokie Norful with how I'm fiending
Used to see you like Kenan, every Saturday evening
Now I'm glad to say at the matinee you grabbin' my penis
Fallin' in love, fallin' like Alicia, nothing in between us
During sex our safe word is "renix"

Theme song, ringtone, every time you phone me
My Clark Kent is nonsense, you my one and only
Main attraction, made a habit dance while you lean on me
No cap and no distractions when I make it home

Yeah

Had a couple flowers like a corpse viewin'
Jaw droppin' rap, brought the homies like I'm carpoolin'
Young dude, But the ladies treat me like I'm George Clooney
If you hate, keep it to yourself like you caught cooties
Part two the Pivot tape, they hear me the first time
This is just reitery
Girl by my side, got to bond like a ligament
We be low-key like a lizard skin
Tryna get a bag like a M&M
She on a hook like when I fish
She give me a little like stipend
She pull up, and we gon' pull off like a rice dish, uh
Nigga don't like this, they pay me in full like Mekhi
She pull up, and she end up spendin' the night here

Theme song, ringtone, every time you phone me
My Clark Kent is nonsense, you my one and only
Main attraction, made a habit, dance while you lean on me
No cap and no distractions when I make it home

It was hard to read the signs like Morse code
S-O-S was more so effortless, big wardrobe, havin' fits
I put on and fuck it off like the rubber slips
They treat all my words like the covenant
Hair long as Jesus, breakin' bread with some disciples
'Til we tower like the Eiffel, I been foreign to my rivals
Drive down a whole 'nother side
Catalog on a whole 'nother vibe
Peep the essence, Joe Clark with the lessons

Took my feelings up out of my pocket they
Like Vic they be scramblin' move my anatomy
Just showin' out early like matinee
Show me that play you like Madden say
Step casual, the madam sway
No words, she feelin' like sadatay
Still I just gotta say

Theme song, ringtone, every time you phone me
My Clark Kent is nonsense, you my one and only
Main attraction, made a habit, dance while you lean on me
No cap and no distractions when I make it home
