## Pivot Gang

Mmh, one sec', let me check that flight at O'Hare  
In my glow like a Super Saiyan with gold hair  
We locked eyes and we sending signs like a road flare  
Keep me up on the late night like Colbert  
I don't wanna waste time  
Can't believe my eyes when I seen you on FaceTime  
Know you feel the same 'cause we both got a great mind  
Keep me up on the late night

Legacy, gather all my melodies  
Mixin' stove-top recipes  
We was where the cold hot, that's the grease  
Niggas cross, face-check the crease  
Cripple Chris kept his knees  
Wouldn't submit, no retreat  
Defeat dragons for a feast that's a feat you will never meet  
Tried to greet, you was hella sleep  
Wish a break awaken me, breakin' free  
At this point, seem like the only thing that I need

Mmh, one sec', let me check that flight at O'Hare

Ayy, wake up like this every day, the day done, yeah  
Check the news, the black and white, the penguin, ayy  
I'm just busy chefin' like I'm Raekwon, ayy  
Know I got your back like Jake from State Farm, ayy  
Tryna kick it in the sun just like a raisin, yeah  
I'm still with the niggas I was raised 'round, yeah  
My grandfather used to stay in K-Town, ayy  
I just caught the plane, now I'm LA bound, ayy  
This the part we parted ways  
We did not talk for a lot today  
All of my niggas, they got my back  
If you fuck with me then you caught they fades  
Shittin' on 'em like a potty train  
Tried to hold me back but I'm not detained  
Lot of rappers be actin' hood  
Gettin' to it, obviously ain't  
I don't wanna waste time, I don't wanna Facetime  
I wanna be where you are  
Think a lot alike, great minds  
Get it right and take time  
But this the realest by far

Mmh, one sec', let me check that flight at O'Hare  
In my glow like a Super Saiyan with gold hair  
We locked eyes and we sending signs like a road flare

Uh, this long distance feel like Superman weakness  
I wish I could reset, all you gotta do is say yes  
Believe in us like Jesus, I'll cheat death  
Almost done with school, but you still got a week left  
Our last interaction had me, um, speechless  
Countin' down the seconds now like children at recess  
Sit your booty on my face or on my lap  
When you get back, just don't go nowhere

One sec', let me check that flight at O'Hare  
In my glow like a Super Saiyan with gold hair  
We locked eyes and we sending signs like a road flare  
Keep me up on the late night like Colbert
