

All We Have Is Now

Pixie Lott

Nothing but green lights
On the boulevard
Going out all night
Like shooting stars
Fighting back tears
In a borrowed car
Seems like years ago

Look at the diamonds on the city streets
How they light the way
To bigger dreams
Where do we go
When there's nowhere to be?
No one really knows

And we dance through the darkness
Like it was made for us

You
Can't stop the river from rolling
And you can't find love
When there's none
Unbreak a heart when it's broken
Or turn back time
That's already gone
Just be here with me
I wanna stay in this forever
Just be here with me
And nothing else will ever matter
All we have is now

The sun will never set
On you and me
I know we're younger than
We'll ever be
Counting the waves
Down on Venice beach
Ever on we go

And we dance through the darkness
Like it was made for us

You
Can't stop the river from rolling
And you can't find love
When there's none
Unbreak a heart when it's broken
Or turn back time
That's already gone
Just be here with me
I wanna stay in this forever
Just be here with me
And nothing else will ever matter

All we have is now
All we have is now
All we have is now

All we have is now

And we dance through the darkness
Like it was made for us

You
Can't stop the river from rolling
And you can't find love
When there's none
Unbreak a hearts when it's broken
Or turn back time
That's already gone
Just be here with me
I wanna stay in this forever
Just be here with me
And nothing else will ever matter
All we have is now

And nothing else will ever matter
