

# Band Aid

Pixie Lott

When I met you I didn't really like you  
First impression was you were somebody who'd  
Walk right by when I waved at you and say 'Hi'  
But they say (Hey)

Bad beginnings make happy endings  
Now that i know you  
I begin to understand things  
It's turn around a hundred and eighty degrees  
I found my missing piece

There's something about you  
That's like the sun  
You warm up my heart  
When I come undone

Your like my soulmate  
And on those days  
When I hurt  
When I break  
You are my band aid

(You are  
You are  
When I hurt  
When I break  
You are  
You are  
You are  
When I hurt  
When I break  
You are)

When I get caught in the rain and it feels like  
There is no one in the world who understands my  
Complications that I'm facing on certain days  
I talk it through with you

No matter how I try to hide  
You see straight through my disguise  
You know how to fix me you are my therapy

(Baby, oooo)

There's something about you  
That's like the sun  
You warm up my heart  
When I come undone

Your like my soulmate  
And on those days  
When I hurt  
When I break  
You are my band aid

(You are  
You are

When I hurt  
When I break  
You are  
You are  
You are  
When I hurt  
When I break  
You are)

Isn't it funny how these things can turn around  
Just when I thought I knew you  
You proved me wrong  
I used the hate the things you love  
And love the things you hate  
But now I

Like it  
I like it  
I like it  
Now I la la la la like it  
I like it  
I like it  
la la la la like it  
I like it  
I like it

There's something about you  
That's like the sun  
You warm up my heart  
When I come undone

Your like my soulmate  
And on those days  
When I hurt  
When I break  
You are my band aid

(You are  
You are  
When I hurt  
When I break  
You are  
You are  
You are  
La like it  
I like it  
I like it  
Now I la la la la like it  
I like it  
I like it  
I like it  
La la la la la la la la like it  
I like it  
I like it  
I like it, Oh  
i like it  
I like it  
I like it
