Blackout (My Only Love)

Pixie Lott

I've gotta flip the switch, turn this heartache off
Bright lights been blinding me and I've had enough
You've let your colours show, went from green to red
The conversation dead, still can't get you out my head

You were the one, my only love, my only love
Telling me lies, gotta give you up, I'll give you up

We need a total blackout, before you turn my heart out
Baby, there is no doubt, you threw it away
Try convincing me, it's not that easy
I don't want no flake out, I need a total blackout
Need a total blackout, I need a total blackout

Oh, I fall apart knowing it's the end
But, I toss and turn, lying in my bed
Watch us fade to gray, there's no hope in sight
Otherwise you lie, watch, you make your baby cry

You were the one, my only love, my only love
Telling me lies, gotta give you up, give you up

We need a total blackout, before you turn my heart out
Baby, there is no doubt, you threw it away
Try convincing me, it's not that easy
I don't want no flake out, I need a total blackout
Need a total blackout, blackout

Now stand on your own, you care, but I don't
No light in the tunnel this time round
Let me break it down, you just wear me out
Good luck finding your new rebound

You were the one, my only love, my only love
Telling me lies, gotta give you up, give you up

We need a total blackout, before you turn my heart out
Baby, there is no doubt, you threw it away
Try convincing me, it's not that easy
I don't want no flake out, I need a total blackout

We need a total blackout, before you turn my heart out
Baby, there is no doubt, you threw it away
Try convincing me, it's not that easy
I don't want no flake out, I need a total blackout

Don't go, don't try, don't say you're mine
It's over now, the lights gone out
We need a total blackout, I need a total blackout
Baby, there is no doubt, I need a total blackout
