

# Break Up Song

Pixie Lott

By the grace, of your lips  
I have long searched, happiness  
And the love, in our hearts  
Shone away, through the dark  
But lately, lately, lately, lately, I  
Have felt an overwhelming need to cry  
And maybe, maybe, maybe we can try  
To make it right, oh to make it right

This is our break up song, but  
Can't we just get along for the night  
Not a fight, one less, goodbye  
But just a moment, let me hold back  
Baby hold back, all the things we haven't said  
Make love like we just met

By the way  
Let you kiss, I know it's over, yeah all of this  
And the one world, that we knew  
Has broken, in two  
'Cuz lately, lately, lately, lately, I  
Have felt a [?] of change I get tonight  
And baby, baby, baby, if we try  
We make it right, yeah we make it right

This is our break up song, but  
Can't we just get along for the night  
Not a fight, one less, goodbye  
But just a moment, let me hold back  
Baby hold back, all the things we haven't said  
Make love like we just met

Gonna miss the way you held me in the morning  
I'm gonna miss the future we planned  
The way we fought, the way we kissed  
The heat inside, the tenderness  
Love was our religion

This is our break up song, but  
Can't we just get along for the night  
In spite, of the hurt, we hide  
For old times sake  
Won't you just take me by the waist  
Hold me underneath the sheets  
Make love like our first week

This is our break up song, but  
Can't we just get along for the night  
Not a fight, one less, goodbye  
But just a moment, let me hold back  
Baby hold back, all the things we haven't said  
Make love like we just met
