

# Build My World

Pixie Lott

I cleared out my room for you  
And painted all the walls  
I took down the posters to  
Put a picture of us  
All seeds you've been sowing are growing  
And so am I  
I waited so long for you  
I guess good things take time

I've never felt so close  
To anyone I've known

I've got all of these feelings  
With everything changing  
My heart is exploding  
With all this crazy emotion

I'm starting to build my world  
Around you  
I'm starting to build my world  
Around you

I picked out some clothes for you  
That I know you will love  
And all the little names for you  
Are all I'm thinking of  
All seeds you've been sowing are growing  
And so am I  
So long I've carried you  
I guess good things take time

I've never felt so close  
To anyone I've known

I've got all of these feelings  
With everything changing  
My heart is exploding  
With all this crazy emotion

I'm starting to build my world  
Around you  
I'm starting to build my world  
Around you

And we'll begin  
Skin on skin  
Hand in hand  
Making all kinds of plans  
I might not live forever  
But I'll live forever  
In you  
And in all that you do
