

Pleasure to the heart, light within in the dark  
I guess it's safe to say, you're perfect from the start  
Full of love and now I'm sneaking through  
Lost the most to pass but baby send me to my destiny  
Looking heavenly and so aesthetically you are my fantasy  
Most definitely, when you're next to me  
I hear the melodies upon the symphonies  
Now the bass go and the lights off  
Turn the candles on, baby breathe soft  
Let your mind roam, let the breeze off  
Looking to my eyes now I see you go

Is chills running through my body, shivering down my spine  
Kiss and quiver for you, so happy that you're mine  
I'm shaking, I can't control myself  
'Cause you, you send me chills, you send me chills

Have you ever seen the brightest of your dreams  
You're looking so divine the shine breaks the seams  
Overthrows the queens and turns them into fiends  
Uncompared beauty far beyond the gleam  
Running through my mind  
Taking fascination now over time, she taking inspiration  
Flying in and out, call it full invasion  
Holes my heart deep like a conversation, yeah

Is chills running through my body, shivering down my spine  
Kiss and quiver for you, so happy that you're mine  
I'm shaking, I can't control myself  
'Cause you, you send me chills, you send me chills

Cold as the winter breeze, making my heart freeze  
Hot as the sun's flame, when you say my name  
Sparkling like Perrier, get me dizzy like a Chardonnay  
I feel chills when you look at me, chills when you touch me  
Chills running all over my body

Chills running through my body, shivering down my spine  
Kiss and quiver for you, so happy that you're mine  
I'm shaking, I can't control myself  
'Cause you, you send me chills, you send me chills  
You send me chills, you send me chills, you send me chills

I can't help it, I can't stop it, I can't take it  
I can't find, 'cause you send me, you send me chills  
You send me chills, baby
