

# Hearts Break Everyday

Pixie Lott

Nobody said that this world would be easy  
I just assumed you would be there  
Holding my hand staying nowhere  
Remember you promised that you'd never leave me  
I know I should be moving on, but I can't get off the floor

Hearts break everyday, yeah, hearts break everyday  
But you tore mine apart  
And time will heal the pain and hearts must beat again  
But mine won't even start  
These hearts break everyday

I really wish I could turn back the time now  
Back to when I was just for you  
Back to when what we had was true  
And now that it's over I don't really know how  
To overcome this tragedy and though everybody tells to me

Hearts break everyday, yeah, hearts break everyday  
But you tore mine apart  
And time will heal the pain and hearts must beat again  
But mine won't even start, these hearts break everyday

I can't get over you and I'm torn in two  
Tell me what to do

Hearts break everyday, yeah, hearts break everyday  
But you tore mine apart  
And time will heal the pain and hearts must beat again  
But mine won't even start, these hearts break everyday

Hearts break everyday, yeah, hearts break everyday  
But you tore mine apart  
And time will heal the pain and hearts must beat again  
But mine won't even start, these hearts break everyday
