

# Leaving You

Pixie Lott

Life is cruel, these circumstances  
Why were there chances  
I'd fought so hard for you  
The times not right  
And we both know it  
But you're not to show it  
Peeling apart slowly from you  
Kissing me so sweetly, a taste of margarita  
I won't forget that day  
You're the one I dreamed of  
Always be my first love  
But you know that I can't stay

And I'll never get over  
Leaving you, you  
It's the hardest thing I'll ever do

Lazy days, spent in the sunshine  
Drinking Rosé wine  
Feeling so easy with you  
Late night walks, talking together  
Hoping forever, wouldn't be coming so soon  
Letting go of someone  
I don't wanna part from  
I won't forget today  
Everything I dreamed of  
So glad you're my first love  
But you know that I can't stay

And I'll never get over  
Leaving you, you  
But I know it's what I gotta do  
And I'll never get over  
Leaving you, you  
It's the hardest thing I'll ever do

Maybe some day  
Our roads will cross again  
Don't say it's the end  
Maybe some day, but until then

And I'll never get over  
Leaving you, you  
But I know it's what I gotta do  
And I'll never get over  
Leaving you, you  
It's the hardest thing I'll ever do

I gotta leave you baby  
Though it hurts me  
And I'll never get over this  
And when it hurts, it hurts  
It's killing me, it's killing me
