

One More Chance

Pixie Lott

The engine goes the plane whistles down the pilot gives up hope
He knows his chances are slim when he hits the ground
As the women screams in the burning house the smoke engulfs around
She slowly knows there's no exits to be found
As they realise there's no compromise, no more love left gotta go
Before they close their eyes, they shout up to the skies

Give me one more chance before you bring me down
Give me one more chance to show you
Give me one more try to turn my life around
Give me one more chance and I'll show you

The car has turned and slowly burns there's leaking fuel around
The drivers trapped and awakes to the siren sound
He panics first and expects the worst tries to reach out for his phone
To tell his wife and kids he wont be home

Give me one more chance before you bring me down
Give me one more chance to show you
Give me one more try to turn my life around
Give me one more chance I'll show you

The pilot smiles and wonders why the engines just came on?
The flight subsides with relief she cries and the fireman stands alone
A hand comes through and pulls him out before he has a chance to make the call
Give him one more chance to prove that he was wrong

Give me one more chance before you bring me down
Give me one more chance to show you (before you bring me down)
Give me one more try to turn my life around (to turn my life around)
Give me one more chance I'll show you

Give me one more chance before you bring me down
Give me one more chance to show you (before you bring me down)
Give me one more try to turn my life around (to turn my life around)
Give me one more chance I'll show you
