

Point Of No Return

Pixie Lott

I found salvation in your arms
That was long ago
Now I think this stuff is doing me harm
We hit an overload

It just feels so wrong
We've gone on too long

'Cause I don't need to hurt anymore
What we got ain't worth working for
I've got nothing left for you to break
Too late, too late, too late

I used to feel so happy in our bed
But that was long ago
Now I see the sheets are all in shreds
We hit an overload

We can't carry on
'Time that you were gone

'Cause I don't need to hurt anymore
What we got ain't worth working for
I've got nothing left for you to break
Too late, too late, too late

You got a lot to learn
You treat someone bad
And assume that
They'll always come running back
What is up with that?
The point of no return
You're getting me down
And now I'm all you have
Without looking back
Baby, I'm done with that

My poor little heart won't boo hoo hoo hoo hoo for you, no
My poor little heart gonna boom boom boom for someone new

You got a lot to learn
You treat someone bad
And assume that
They'll always come running back
What is up with that?
The point of no return (No return)
You're getting me down
And now I'm all you have
Without looking back
Baby, I'm done with that

My poor little heart won't boo hoo hoo hoo hoo for you, no
My poor little heart gonna boom boom boom for someone new

You got a lot to learn
You treat someone bad
And assume that

They'll always come running back
What is up with that?
The point of no return (No return)
You're getting me down
And now I'm all you have
Without looking back
Baby, I'm done with that

My poor little heart won't boo hoo hoo hoo hoo for you, no
My poor little heart gonna boom boom boom for someone new

Cause I don't need to hurt anymore
What we got ain't worth working for
I've got nothing left for you to break

The point of no return
The point of no return
No, no, no
The point of no return
