

Everything will break
And when it does I'd give anything
For one minute more with it
So I'll take a minute now
And study all your lines
So one day when I don't have them right
In front of me I'll be fine

When all the lights
All the lights are low
I don't mind
No, I don't mind
'Cause in the dark
In the darkness
I can see clear with you
I just wanna tell you that
I'll never want anything more than this
Can we just be quiet and
Watch all the stars fall down?
Watch them falling

It's ok to be scared
When you don't know what's coming next
Stop and then count your breath
Just take a minute now
'Cause I'll go to the ends
Of the earth and come back again
I would do anything

When all the lights
All the lights are low
I don't mind
No, I don't mind
'Cause in the dark
In the darkness
I can see clear with you
I just wanna tell you that
I'll never want anything more than this
Can we just be quiet and
Watch all the stars fall down?

Watch them falling down now
Watch them falling down now
Watch them falling down now
Watch them falling down

Only in the darkness
Only in the darkness
Only in the darkness
We can watch all the stars fall down

I just wanna tell you that
I'll never want anything more than this
Can we just be quiet and
Watch all the stars fall down?
Cause I already love you more
Than anything I've ever loved before

Can we just be quiet and
Watch all the stars fall down?
Watch them falling
