

The Point Of No Return

Pixie Lott

I found salvation in your arms
That was long ago
Now I think this love is doing me harm
We're hitting overload

It just feels so wrong
We've gone on too long

Cause I don't need to hurt anymore
What we got ain't worth working for
I got nothing left for you to break
Too late, too late, too late

I used to feel so happy in our bed
But that was long ago
Now I see the sheets are all in shreds
We've hitten overload

We can't carry on
Time that you were gone

Cause I don't need to hurt anymore
What we got ain't worth working for
I got nothing left for you to break
Too late, too late, too late

You've got a lot to learn
You treat someone bad
And it's true that I always come running back
What is up with that?

The point of no return
You're getting me down
And now I want you out with not looking back
Baby, I'm done with that

My poor little heart won't boo hoo, hoo, hoo, hoo for you, no
My poor little heart gonna boom, boom, boom for someone new

You've got a lot to learn
You treat someone bad
And it's true that I always come running back
What is up with that?

The point of no return
You're getting me down
And now I want you out with not looking back
Baby, I'm done with that

My poor little heart won't boo hoo, hoo, hoo, hoo for you
My poor little heart gonna boom, boom for someone new, oh

Cause I don't need to hurt anymore
What we got ain't worth working for
I got nothing left for you to break

The point of no return

The point of no return
No
The point of no return
