All Over the World

With a pet at my side God in the sky snow falling down freeze my body to the ground I can't ride but one more time I will ride all over the world

Washed over the side top of the sky slow diver down two feet land on a different fround you can't live easily you can't even speak but all of them speak all over the world

I will meet you over there I am going to meet you over there washed over the side top of the sky slow diver down two feet land on a different ground you can't live easily you can't even speak fish all of them speak all over the world

A plain with no herd not even a bird when one side is hot the other side of the moon is not it's just like a ride maybe some time they'll make it a ride all over the world

I will meet you over there I am going to meet you over there

Time is an arrangement time is an arranger I am a derangement

All my thoughts all I am are my thoughts all my thoughts I am all what I'm taught

Better call the ranger got a train derailments better call the ranger

What I'm taught all I am are my thoughts all my thoughts

Pixies

all I am are my thoughts what I'm not
