Betty always knows betty always tells she laughing desperately she said it felt like a river inside her bones when she went down to the well

Gonna be with her she is gonna take me there lead me by my hand her body a rocking chair for my soul

I can hardly wait, baby
I can hardly wait
'til we go down to the well
down to the well

Been thinking to myself and if a life's not long what matter does it make if there'll be favorite songs playing in my head when we go down to the well

I can hardly wait, betty
I can hardly wait
'till we go down to the well
down to the well
