

# Hypnotised

**Pixies**

Hypnotized, I have been hypnotized  
Mesmerized, these trees, they make me fall  
I am frozen, I can't hear you call  
Is anybody out there?

In the morning, the sun will shine its light  
Light is my head, head off to the woods  
Would I do this? This is very bad  
Is anybody out there?  
Is anybody out there?

Will you help me to see?  
Is it out of my reach?  
The clouds in my eyes, they're not leaving

I've been hexed  
I can't control my  
I've been hexed  
I can't control my grace  
I can't get to bed  
I've been hexed

I've been hexed, I can't control my grace  
Mirrors breaking, I can't see my face  
Head is spinning, I can't get to bed  
Is anybody out there?

In the evening, the moon is hanging high  
High is my head, head off to a dream  
Dream of monsters, monsters made me cry  
Is anybody out there? (Anybody out there?)  
Is anybody out there? (Anybody out there?)

Will you help me to see?  
Is it out of my reach?  
Clouds in my eyes, they're not leaving  
The clouds in my eyes, they're not leaving
