

The Vegas Suite

Pixies

He's coming today
He's coming to save us
I hope he don't hate us
I hope he forgave us

I'm going away
I'm going to Vegas
And if I don't make it
There's lots other places
I had a two-year run
Down in Henderson
But when you've done everything
Everything is done

He's coming today
He's coming to save us
I hope he don't hate us
I hope he forgave us

I've broken my leg
Back in Las Vegas
But they were so gracious
I doubled my wages
I was at the Pizza Hut
In Needles, California and I'll tell you what
I paid a dollar three times for revolution number nine
And everything was fine, but, oh

He's coming today
He's coming to save us
I hope he don't hate us
I hope he forgave us
He's coming today
He's coming to save us
I hope he don't hate us
I hope he forgave us
He's coming today
He's coming to save us
I hope he don't hate us (I don't hate you)
I hope he forgave us (I forgive you)
