PIXY

Once upon a time
There were six fairies living in a dark mystical forest
The six fairies were different from the others
They were born without wings
Mocked and neglected by the other fairies
They maintained their pure souls by forming a friendship
With the majestic-winged butterflies
One day, one fairy was scavenging flowers to make hair pins
And came across a torn pair of glistening wings

Ah...
Let me love you, boy
Ah...

Let me know, boy
Let me, let me know
Let me know, boy
Let me, let me know
Let me know, boy
Let me, let me know
Ah...
