Pixy has been reborn

Dropped that fought that in the life
I used to have as

Baby I just lost my memory in the new life
Into the pitch black universe

I'm looking myself in the mirror
As if it's the beginning of the end
Who's the real me I ask myself
Likely the goodness paradox

She's callin' me
"Time to wake up
Don't forget me
I'm still right here with you"

I suddenly have this
Strange and familiar feeling
To me
Come closer

Dropped that fought that in the life
I used to have as
Baby I just lost my memory in the new life
Take a look inside

Who's the real me I ask myself
Likely the goodness paradox

I'd be happy to be a villain
Gonna go, drag me deeper
Don't give a f what you say
No matter what you babble, I complete myself

A throw of the dice
You better run, I keep an eye on you
I'm gonna hunt you down
I'm gonna gulp you down
Saint who will fix you
Sinner who will crush you

Can't hide from me
I still see you
Clock is ticking
You're struggling
Being held by me

Recognize me?
You know, now you tell me
Who am I?

Chew you up and spit you out
I'm slowly killing you now
Don't make a sound

Cut it off, take it off, the chain that tied me up
Get rid of all the fake smiles now
The day after I found myself, killer holiday
If you're bad then you can call me villain
