

# Dry

PJ Harvey

I caught it in the face  
Coming around again  
I thought it was worth waiting  
You're caught up in my head  
Wet sides from time to time  
But mostly I'm just dry

You leave me dry  
You leave me dry  
You leave me dry

You've come all this way  
No hair out of place  
You put it on the stage  
You put right in my face

You leave me dry  
You leave me dry  
You leave me dry

No water well in sight  
No water at my sides  
I'm sucking on the well  
I'm sucking 'till I'm white

But you leave me dry  
You leave me dry  
You leave me dry  
You leave me dry  
You leave me dry
