

O Stella

PJ Harvey

Stella marie oh my star
stella marie oh my star
stand on ground look up at her
just hanging in gold stone
just hanging there face froze
but I think I see her smiling
think I see her smiling
think I see her smiling
think I see her smiling
go
go
go
go go
stella marie you're my star
in your blue blue time well you light my lantern
o stella's large (for the life of me I can't quite make this out)
pink almond face
it's glowing in space
a place for heroes only
place for heroes only
place for heroes only
place for heroes only
go
go
go
go go go go
stella marie you're my star
I pin you to my chest
sell you to the rest
I kiss her gown
send those angels down to woo me now
I think I see her smiling
think I see her smiling
think I see her smiling
think I see her smiling
go
go
go
go go
go
go
go
go go
go
go
go
go go
