

# The Moth

PJ Harvey

Oh ghost moth, hear me, hear me  
Oh pale moth, shield me, shield me  
I hear you beating, beating  
I feel you in me, in me

Beyond yourself  
into the lights  
Palest wings  
burning bright

Oh ghost moth, hear me, hear me  
Oh pale moth, shield me, shield me  
I hear you beating, beating  
I feel you leaving, leaving

Lose yourself  
into the lights  
Palest wings  
wave goodbye

Nothing else but waves of love  
Nothing else but waves of love  
I can't wait for night to come  
Nothing else but waves of love
