

Be Like Water

PJ Morton

Be like water
Let it flow
Water
Just let go
Be like water
Where we'll end up we don't know
Water
Just let it flow

I think by now you should know
Things won't always go your way
Can't change things you can't control
So let those worries wash away

Just be like water
Let it flow
Be like water
Just let go
Be like water
Where we'll end up we don't know
Water
Just let it flow

Obstacles seem to be everywhere
Elevators out of order, use the stairs
But don't you ever let it make you question your path
Be that still and quiet or as loud as a crash

Be like water
Let it flow
Water
Just let go
Be like water
Where we'll end up we don't know
Water
Just let it flow

Be like water
Let it flow
Water
Just let go
Be like water
Where we'll end up we don't know
Water
Just let it flow

I been away from lames so long
I thought the world was perfect
So when y'all bring hater stuff up
I don't even get nervous
Kinda like it don't exist
Just a figment of imagination
A wickedness I'm not relating
Situation looking at it lately with a
Wisdom of a man who made it
The bright side, the light side
Never dealing with the fakers

An aqueous vernacular, aquatic
A splash of love quenching you
With a drip and style more elevated than fashion bruh
Drenching you, I sit and watch everybody miss the view
They too concerned with the minuscule
Instead of working on many skills that they have, yeah
Stay clear stay pure
Life too short for you to stay mad

Be like water
Just let it flow
Water
Just let go
Be like water
Where we'll end up we don't know
Water
Just let it flow
