

I Can't Wait

PJ Morton

I can't wait till I get back to you
All this distance has me missin', yeah
All the good times that we used to share
I took for granted, petty semantics, yeah
But now I'm seein' everythin' so clear
And all I know is that I want you here

Just to think
All the things we'd miss
If we ended like this
It'd be a big regret
So I won't waste time
The next time there's a chance
A chance to hold your hand
And tell you how I feel, feel

Oh, I can't wait till I get back to you
All this distance has me missin', yeah
All the good times that we used to share
I took for granted, petty semantics
But now I'm seein' everythin' so clear
And all I know is that I want you here
