

Please Don't Walk Away

PJ Morton

It's never gone this far
It's never been this bad
But I won't let it erase the memories
Of good times we've had
And even with everything
That we've been going through
You never have to ask me
I still choose you

Oh, girl
Please don't walk away from my love
Please don't walk away from my love

I hope you can hear my heart
I hope it's speaking clearly
I don't wanna be apart
I just want
You near me

Please don't walk away from my love
Please don't walk away from my love
Please don't walk away from my love
Please don't walk away from my love
