

Ready To Love

PJ Morton

I know it took me some time
To get to the place that you wanted me to be, oh
I know it was never you
I just needed to work on me, oh
But now I'm ready, I'm ready to love, whoa
I'm ready, I'm ready to love, mmh, yeah, uh, see

You're always on my mind
Don't know what I was waiting for, oh
I guess I still had some fear
But now there's no need to look anymore, eh
'Cause now I'm ready, I'm ready to love, oh
I'm ready, I'm ready to love, mmh, yeah, uh, see

People search their whole life for what we had
For a love like this
That will last until the end of time
Yeah, oh, oh-oh-oh
So I'll cherish these moments like they're out last
You know life is short, they go by so fast
I'm so happy that you're mine, oh

I know it took me some time
To get to the place that you wanted me to be, oh
But now I'm ready, I'm ready to love
