

Smoke And Mirrors

PJ Morton

You lied to me
You didn't want me to see
You knew that if I knew
I might believe in me
Mmm, ah, you tried to
Break me all the way down
Mmm, mmm
You wouldn't believe
When I got back to myself what I found
Mmm, check this out

It was just smoke and mirrors
They try to act like they don't hear us
It was just smoke and mirrors
I'm crystal clear, just don't get near us

They lied to you
They say, "Do what I say, not as I do"
They're so terrified that you might find
What really resides inside of you
You had me fooled
Told me that you're all I need
Now I know that you don't know
And you bleed the same blood I bleed
Would you believe?

It was just smoke and mirrors
They try to act like they don't hear us
It was just smoke and mirrors
I'm crystal clear, just don't get near us
Ooh, ooh

It was just smoke and mirrors
They try to act like they don't hear us
It was just smoke and mirrors
I'm crystal clear, please don't get near us
