

# Trade It All

PJ Morton

I've been dealt some good cards  
Played 'em right and got far  
Been around the world a couple times yet there's still more  
And man it's been amazing  
But I can't let it phase me  
It's just material, easily disposed  
And girl you should know that

I'd trade it all just to be with you  
House, clothes, money, cars  
Can't compare to you  
I'll spend my life showing you what's true  
I'd trade it all just to be with you

Don't get me wrong I want it all  
The light is shining brightly I don't want to turn it off  
But I'm just saying, if things were to change and  
There were different rules and I had to choose  
And I would choose you

I'd trade it all just to be with you  
House, clothes, money, cars don't compare to you  
I'll spend my life showing you it's true  
I'd trade it all just to be with you

Don't even wanna imagine what my life would be  
If you never come along to show me what life means  
And I couldn't face the world  
So what's the use of having things without you, without you

I'd trade it all just to be with you  
House, clothes, money, cars don't compare to you  
I'll spend my life showing you it's true  
I'd trade it all just to be with you
