

# Breathing

Place Vendome

So many ways to say goodbye  
So many ways to live a life  
I'm standing by your side  
When it's time to give it a try  
In the mirror of my heart and soul  
I see what's left behind  
Like a scene from my past  
I remember those days  
And I miss you  
When I'm

Breathing - breathing  
A brand new day is starting up  
But the memories remain  
Breathing - breathing  
In the silence the voice  
In the darkness the light  
Shining bright  
To enlighten the streets

Red tail lights in the pouring rain  
We're just two hearts on separate ways  
Lost in my reflection  
Searching thoughts from within  
Under my feelings - under my skin  
A warming voice comes from inside  
Reaching the deepest part of me  
I'm

Breathing - breathing  
A brand new day is starting up  
But the memories remain  
Breathing - breathing  
In the silence the voice  
In the darkness the light  
Shining bright  
To enlighten the streets

Enlighten the streets, yeah!

So many ways to say goodbye  
So many ways to live a life  
I'm standing by your side  
When it's time to give it a try

Breathing - breathing  
A brand new day is starting up  
But the memories remain  
Breathing - breathing  
In the silence the voice  
In the darkness the light  
Shining bright  
To enlighten the streets
