

# Strong

Place Vendome

This fire that's burning deep in our hearts  
Is aching, time's passing and we fade away  
Come back here, don't go far  
I'll be right here just for you  
Don't let this melt down in tears and goodbye's

We can go on like this for love  
We must be strong  
Just don't deny the past we had  
We gotta go on  
We must be strong

You're trembling, you're crying  
Why don't we just close that door  
Come here, lay down, don't trust your mind  
Come back now, don't let it go down too far  
Don't let me on my knees with tears and goodbye's

We're trapped in our past  
We should melt like the river into the sea

We can go on like this for love  
We must be strong  
Just don't deny the past we had  
We gotta go on  
We must be strong

How do we go that far?  
How do we breathe?  
I'll be right here waiting  
And hoping and praying for you  
To come back to me

We can go on like this for love  
We must be strong  
Just don't deny the past we had  
We gotta go on  
We must be strong
