# I Know

**Placebo**

```
F   Emi     Ami
I know, you love the song but not the singer
F   Emi        Ami
I know, you've got me wrapped around your finger
F   Emi     Ami
I know, you want the sin without the sinner
F   Emi
I know
    Ami
I know

I know, the past will catch you up as you run faster
I know, the last in line is always called a bastard
I know, the past will catch you up as you run faster
I know
I know

I know, you cut me loose in contradiction
I know, I'm all wrapped up in sweet attrition
I know, it's asking for your benediction
I know
I know

I know, the past will catch you up as you run faster
I know, the last in line is always called a bastard
I know, the past will catch you up as you run faster
I know
I know

I know, the past will catch you up as you run faster
I know, the last in line is always called a bastard
I know, the past will catch you up as you run faster
I know
I know.
