

# Natural Disaster

Plain White T's

She said she saw me on TV  
This girl's a legend in the late night scene  
And you can see she aimed to please  
Cause she just wouldn't take her eyes off me

She made the music come to life  
She moved her body like a butcher knife  
Chopping up every guy in sight  
She was mysterious  
I could not resist to save my life

I don't know what this girl was after  
She's a natural, natural disaster  
She's so sexy  
I had to have her  
She's a natural, natural disaster  
Natural disaster

Now when she left me on the floor  
She knew I'd follow her right out that door  
She'd always leave you craving more  
Just the addiction I've been waiting for

She made the music come to life  
Staring me down with those electric eyes  
And when she said 'Your place or mine?'  
I was delirious, I could not resist to save my life

I don't know what this girl was after  
She's a natural, natural disaster  
She's so sexy  
I had to have her  
She's a natural, natural disaster  
Natural disaster

All my love  
What's your name?  
What's your game?  
Show me how to play  
All night long  
Cause I can see you and me going all the way  
All night long  
And I don't even really care what you're after  
All night long  
As long as you keep going faster and faster

She said she saw me on TV  
This girl's a legend in the late night scene  
And you can see she aimed to please  
Cause she just wouldn't take her eyes off me

I don't know what this girl was after  
She's a natural, natural disaster  
She's so sexy  
I had to have her  
She's a natural, natural disaster  
Natural disaster

I don't know what this girl was after  
She's a natural, natural disaster  
She's so sexy  
I had to have her  
She's a natural, natural disaster  
Natural disaster
