

Grateful

Plan B

What the hell have I got to be grateful for?
Can't be the money else I wouldn't be tryna make no more
Can't be the car or the house or the things I got
Take that shit with me up to heaven when I've had my lot

So what the hell have I got to be grateful for?
Well what have I got to lose? Oh yeah
After all the fame, all the money, all the things I've bought
Oh, I can't think of nothing other than
No, I can't think of nothing other than you

And that's a lot to be grateful for
Appreciate you for
Like helping me count my blessings (I'm very grateful)
From the bottom of my heart
From the bottom of my soul
From the tips of my fingers down to my toes
I'm very grateful, grateful
I'm very grateful

What the hell have I got to be thankful for?
Make me wanna go to church say thank you Lord?
Becoming a father, ain't like I was shown
'Cause when I was growing up I never had one there at all, oh no
So what the hell have I got to be thankful for?
Only one thing's true, oh yeah
My life changed forever on the day that you were born
So it could only ever be
Oh, it could only ever be you

And that's a lot to be grateful for
Appreciate you for
Helping me count my blessings
(I'm very grateful)
From the bottom of my heart
(There's a lot to be grateful for)
From the bottom of my soul
(Appreciate you for)
From the tips of my fingers
Down to my, down to my toes
(I'm very grateful, grateful)

Now, why the hell am I looking so hopeful for?
So full of gratitude?
What's to thank for the great change in my life?
I can't think of nothing other than
No, I can't think of no one other than you

There's a lot to be grateful for
Celebrate you for
From the bottom of my heart
From the bottom of my soul
From the tips of my fingers down to my toes
From the bottom of my heart
From the bottom of my soul
From the tips of my fingers down to my toes
I'm very grateful, grateful...
