

Burn

Plan Three

Take the road that you know but you never tried
Of thousands of people a million have cried
Stand in the open trying to hide
Casting the shadows that turn out the light

Fire
The flame is within you
We can let it all burn again
Fire
Ignited inside you
And just let it all burn again

You have the notion but you have no way
To break down the feeling of losing you faith
Time has been given your mind is made up
We feast on our treasure while cause has been lost

We're too blind to find our path
Still we see the way

Fire
The flame is within you
We can let it all burn again
Fire
Ignited inside you
And just let it all burn again
Just let it all burn again

And you see truth
Now turn away from the life you knew

Fire
The flame is within you
We can let it all burn again
Fire
Ignited inside you
And just let it all burn again
Won't you let it all burn again
