Echo

Plan Three

Analyze this love make it easier
I analyze this love for me
Break it off in two and then divide by three
I analyze this love for you too

And when logic makes no sense
We take a dive until we're in too deep
We're in too deep

Getting close to the edge
I am slipping away
And I'm going insane
As I call out your name
You're my echo
You become my echo

Analyze this love recursive formulas
I analyze this love for us

And I search through all that's in me
With every part of my entity
And then it starts again
And when logic makes no sense
We take a dive until we're in too deep
We're in too deep

Getting close to the edge
I am slipping away
And I'm going insane
As I call out your name
You're my echo
You become my echo
You become my echo
