

Welcome to the Edge

Plan Three

Welcome to the edge...
Welcome to the edge...

See the air
It's full of smoke
And city hall is coming down

And I hear my own voice
Resonating deep inside
As the noise becomes the sound

I am going critical
Supersonic animal
I can feel the pressure rise in my veins
The second that I realize it won't change

Situation's radical
So radiating beautiful
A combination bursting out of my head
This is where it all goes down in the end
So welcome to the edge
Welcome to the edge

Is this the end?
A final round
When history runs out of time

When the prophecies align
And the sky is full of signs
Suffocate the city lights

I am going critical
Supersonic animal
I can feel the pressure rise in my veins
Suddenly I realize it won't change

Situation radical
So radiating beautiful
A combination bursting out of my head
This is where it all goes down in the end
So welcome to the edge
Welcome to the edge

I am going critical
Supersonic animal
I can feel the pressure rise in my veins
Suddenly I realize we won't change

Situation radical
So radiating beautiful
A combination bursting out of my head
This is where it all goes down in the end
So welcome to the edge
Welcome to the edge
Where everything is radiant and beautiful yeah

Welcome to the edge

Welcome to the edge
