

Big Fish

Planet Funk

I found the big fish
I found the big fish
Down in the deep, deep water

I found the big fish
I found the big fish
Down in the deep, deep water

I am a hunter
I am not a teacher
I got a large family
Looking for a way to reach you
In all your fear and anxiety
In the so called civilized society

Working class navigator
All with a cosmic vibrator

I need some truth to feed me
That's why I'm blind
I climbed the mountain but god was not there
He was walking on water and life is unfair

I found the big fish
I found the big fish
Down in the deep, deep water

I found the big fish
I found the big fish
Down in the deep, deep water

I am fragile
Eternal whispering in your ear
Life is now you are here
Have no fear
Have no fear
Have no fear
Have no fear of the way that you live in the deep
Have no fear of the truth if you live in the light
Have no fear
Revolution is here
And you're still alive

In the deeper water
In the deeper water
In the deeper water
In the deeper water

I found the big fish
I found the big fish
Down in the deep, deep water

I found the big fish
I found the big fish
Down in the deep, deep water
