

## The End

Planet Funk

The night is late the day is young  
And my head spins the final song  
I'll do anything she says  
There's something new around the bend  
I'm beginning at the end  
At the end's where I begin

Sense has gone we're on our way  
Just another drink away  
Stood behind the waterfall

At the end is where we meet  
The dawn is runnin' down the street  
But they can never catch us now  
There's something new around the bend  
I'm beginning at the end  
At the end's where I begin

The night is late the day is young  
My head spins the final song  
I'll do anything she says

You know it's been a while since I saw you

At the end is where we meet  
The dawn is runnin' down the street  
But they can never catch us now

The night is late the day is young  
My head spins the final song  
I'll do anything she says  
There's something new around the bend  
I'm beginning at the end  
At the end's where I begin
