

# The Great Shake

Planet Funk

Once a while you are lost inside  
Once again you stay up all night  
Once a while you wanna feel alright  
Once again there is no end in sight

The great shake is all it takes  
You can't escape, it all relates  
All the things you can't control,  
Wait for me, I want be long

Let me go higher  
I want to go faster  
You want to stay wired  
And you want to go faster  
(2x)

Fresh air can make you choke  
It's unfair when I provoke  
A sentiment of your desire  
You stay the creep, I'll be the liar

Let me go higher  
I want to go faster  
You want to stay wired  
And you want to go faster
